Proposal - Round table "**Education Innovations for Sustainable Development**"

Duration - 60 mins

Format - hybrid (two speakers will attend Summit in person, and the other two - online)

Participants - all interested will be invited to contribute to the round table discussion

Tentative scenario of the round table:

**Keynote “Global trends and challenges in integrating sustainability into higher education”**

Speakers - Nataliia Stukalo, Shahnaz Hamid, LSBF

Questions for discussion:

- How are universities incorporating sustainability into higher education, for instance into the curricula across disciplines?
- What are the key challenges your institutions face when integrating sustainability into higher education?

Time - 5-7 mins for presentation + 8-10 mins for audience reflections and discussion

**Sub-topic “Pedagogical Innovations”**

Speaker - **Patty Zakharia, UCW Canada**

Questions for discussion:

- What is the role of digital learning, AI, and experiential education in sustainability?
- Case studies of universities using innovative teaching methods.

Time - 5-7 mins for presentation + 8-10 mins for audience reflections and discussion

**Sub-topic “Design Education and SDG's”**

Speakers - **Puja Anand, GUS Fellow, and Alok Bhasin, Pearl Academy India**

Question for discussion:

- How Design education can help to address certain SDG's?
- Adapting Design Education across different countries

Time - 5-7 mins for presentation + 8-10 mins for audience reflections and discussion

**Sub-topic “University-Community Engagement”**

Speaker - **Kaddour Chelabi, GUS Fellow, Berlin School of Business and Innovations**

- How higher education institutions collaborate with local communities to promote sustainable solutions?
- Examples of service-learning, research partnerships, and community-led projects.

Time – 5-7 mins for presentation + 8-10 mins for audience reflections and discussion

Questions for round table summary:

- How cultural diversity influences sustainable education approaches?
- What are challenges and solutions in adapting innovations across different countries?
